PARTIAL STREETLIGHTING SERVICE SCHEDULE S-2 Page 1 of 3

APPLICABILITY:

This rate is applicable to municipal street and highway lighting within the Company service area where all street lighting equipment within a specifically defined geographic area of the municipality is owned and maintained by the municipality. For purposes hereof, such a specifically defined geographic area installation of a municipality's street lighting equipment shall consist of not less than all lighting equipment on a public way lying between the intersections of that public way and two other public ways or one other public way and a dead end or the municipal boundary.

INSTALLATION AND MAINTENANCE:

The municipality will provide, own and maintain the luminaire, lamp, photocell, bracket and, if underground service, the high or low mounting pole at its own expense, except that connection or disconnection of the municipality's lighting equipment to the Company's distribution system or installation of the municipality's lighting equipment on the Company's poles will be performed by the Company at the municipality's expense.

MONTHLY RATE:

Included in these rates are unbundled charges per kilowatt-hour as described below.
